DETAILED ACTION

Allowable Subject Matter

Claims 1-6 are allowed.

The following is an examiner's statement of reasons for allowance: The closest prior art known to the Examiner is listed on the PTO 892 and IDS forms of record. Sugumura (US 2001/0009300) disclose a semiconductor element having external connection terminals which are connected electrically to the integrated circuit of the optical element via wirings. See page 4, paragraph 54. The cited prior art does not anticipate or make obvious forming at a region of the one surface side of the semiconductor substrate corresponding to the peripheral region, an electrical wiring, electrically connected to the charge reading portion, and an electrode pad electrically connected to the electrical wiring; adhering a supporting substrate on the one surface side of the semiconductor substrate so as to cover the charge reading portion while leaving the electrode pad exposed; and cutting the semiconductor substrate and the supporting substrate at a thinned portion of the semiconductor substrate so as to leave the peripheral region corresponding to the region at which the electrical wiring and the electrode pad are formed as required by the present Claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
